Stunted Predator Fish

The Lake Alpine population of Northern Pike is out of control. These predator fish are not able to attain the size limit for any licensed resident/non-resident to legally possess in their daily bag.

The State DNR Fishing Regulations state a Northern Pike must be 26 inches or longer before being added to the daily possession limit.

Wisconsin and non-resident fisherman are not able to fully utilize the Lake Alpine fishing opportunities.

Be it Resolved, that the Conservation Congress at its annual meeting held in Waushara County on Monday, April 8, 2013, recommends that the Conservation Congress work with the Department of Natural Resources to take action to correct this situation by introducing rule changes to eliminate the size limit on Northern Pike on Lake Alpine, Waushara County.
